Invitation

The Baltoscandic committee at the University of Riga wish hereby to invite the artist group, pseudoIDs, to take part in the Mytos and Mykos conference wich will take place in Riga from the 26th to the 28th of June.
The conference will focus on the Baltic Shield and the events beyond and below its surface. We wish to use the migration of the myths and the growth of the mycelium as a model for exchange and development of ideas. Curator Walter Block, member of the board of the Baltoscandic committee, has recommended the board to invite pseudoIDs. We find Your activities renewing and refreshing, and consider Your participation indispensable. We do not intend to put any restrictions or guidelines on your contribution, and has great confidence and profound respect to pseudoIDs and to the way You work.
If You need further information or technical/practical assistance, please contact Gertrude Rotlack (secretary of the committee).
We would be happy to receive an answer from You within the 15th of January.

With kind regards from

A handwritten signature in black ink, which appears to read 'Gertrude Rotlack'. The signature is written in a cursive, somewhat stylized script.

Gertrude Rotlack
secretary of the committee
